

Organization Description

IPC – Intelligent Personalized Care

A Solution to promote Physical Agility and Recovery

Guilherme Cepeda

Tiago Martinho

Rodrigo Neves

Supervisor: Paulo Pereira, ISEL

Computer Science and Engineering Bachelor's degree - Project and Seminar
22/23

June 2023

I. Project Repository

The implementation and documentation of the IPC – Intelligent Personalized Care project is publicly available through its GitHub repository, in the following [link](#).

II. Deployment

In this beta phase of the project, we are deploying our Android App in the **ngrok** platform to test our backend and frontend functionalities, and as it needs a physical device always running to host our app, we have plans to change it in the future
